

## OIL & GAS REFERENCES

PAGE 1 of 4

Date	Client	Project
2005	Aker Stord	Statoil <b>Snøhvit</b> Hammerfest LNG plant ESDV and actuator fire and blast protection
2005	Aker Reinertsen	Statoil <b>Norne</b> ESDV/Actuator and riser hang-off fire and blast protection enclosure
2004	AGIP/Mokveld	Valve Passive Fire Protection enclosures
2003	ABB Offshore/Vetco Aibel	Jet fire and blast enclosure for <b>Sleipner</b> riser ESDV control system
2003	EasyWell Solutions	Syntactic downhole flotation balls development for enhanced oil recovery – project ongoing through 2005
2003	Conoco	36" <b>LOGGS</b> ESDV enclosure modifications
2003	Esso	Riser hang-off jet fire/blast protection covers for <b>Ringhorne Jurassic</b> on <b>JOTUN</b>
2002	BP	FPSO Tanker repair study
2002	Shell	Brent <b>Penguin</b> riser hang-off jet fire cover
2002	Amec	Passive Fire Protection of ESDVs on Phillips <b>Judy/Jade</b>
2001	Hitec	Passive fire protection enclosure for ESDV actuator control system for <b>Ekofisk II</b>
2001	Stolt Offshore	Manufacture and supply of composite riser clips for <b>Foinaven</b> flexible riser system
2001	Ekofisk Alliance	Manufacture and supply of fire protection panels for Phillips Norway <b>Eldfisk 2/7</b>
2000	Enron India	Design, manufacture and installation of passive jet fire protection for ESDV actuators and escapeway/lifeboat muster area for the <b>South Tapti</b> gas platform offshore Bombay
2000	Subsea Offshore/BP	Development, testing and supply of electrically conductive resin for repair of sub-sea anodes
2000	Esso	Modification of ESDV jet fire protection systems for <b>JOTUN</b> FPSO
1999	Woodside	Design and manufacture of riser hang-off, ESDV and riser spool jet fire/blast protection systems for <b>LAMINARIA</b> FPSO
1999	Mokveld	Design and manufacture of fire and blast protection Enclosure for ESD Valve and Actuator for ADNOC
1999	Esso	Design and manufacture of riser hang-off and ESDV jet fire /blast protection systems for <b>JOTUN</b> FPSO
1999	Phillips Norway	Design and supply retrofit fire and blast wall for <b>ELDFISK 2/7</b> platform

## OIL & GAS REFERENCES

PAGE 2 of 4

Date	Client	Project
1999	Amerada Hess	Design, development and manufacture of in-situ repair of sea water lift caissons using composite material over wrap technique
1999	Phillips Norway	Design and manufacture of A60 stairtower cladding for <b>EKOFISK B11</b> platform
1999	Phillips Norway	Retrofit fire and blast protection for <b>EKOFISK B11</b> platform
1999	Halliburton/Statoil	Manufacture and supply Riser Hang-off and ESDV jet fire /blast protection for <b>NORNE</b> gas export
1999	BP/Amoco	Development and testing of subsea composite clamps for <b>FOINAVEN</b> Riser repair
1999	2H Offshore	Design and manufacture of composite material data pods for ultra deep water riser system instrumentation
1999	Technip-Coflexip Stena	Design manufacture and supply of riser hang-off passive jet fire protection enclosures for the <b>Åsgard B</b> project
1999	AMG/Elf	Design, develop and manufacture of structural composite components for <b>GIRASSOL</b> deep water risers
1998	Baker Hughes	Pressure Vessel insulation and jet fire protection for <b>GALLEY</b> development
1998	Mokveld	Design and manufacture of fire and blast protection enclosure for water deluge valve on <b>LAMINARIA</b>
1998	McDermott/BP	Design, development and construction of subsea composite clamp for <b>FOINAVEN</b> Riser repair
1998	McDermott/BP	Technical audit and review of <b>FOINAVEN</b> Riser repair using composite clamps
1998	McDermott/BP	Design and fabrication of subsea composite clips
1998	Phillips	Supply of ESDV fire and blast protection for <b>JANICE</b>
1998	Subsea Offshore	Development, supply and injection of high strength subsea grout for docking pile on <b>MALORY</b> project
1998	Phillips	ESDV and actuator fire and blast protection for <b>EXCALIBUR</b> and <b>LANCELOT</b>
1997	Phillips	Design and build of a composite sump tank for <b>HEWETT</b> Platform for Phillips Petroleum UK
1997	Hitec	Design and manufacture of fire and blast resisting enclosures for <b>EKOFISK II</b> Platform for Phillips Norway
1997	Kvaerner	Supply of ESDV and actuator jet fire/blast protection enclosures on <b>BRUCE II</b>

## OIL & GAS REFERENCES

Date	Client	Project	PAGE 3 of 4
1997	Statoil/Aker	Design, develop and manufacture blast and jet fire protection enclosures for <b>Åsgard A</b> riser hang-offs and ESDVs	
1997	Hyundai	Development and manufacture of jet fire protection of production risers on <b>AMRP</b> platforms for <b>SHELL BRUNEI</b>	
1997	AGIP	In-situ reinstatement of corroded pipework on <b>TIFFANY</b> using composite pipewrap	
1996	BHP Petroleum	Modification to SSBV dropped object protection enclosure (Liverpool Bay)	
1996	Brown & Root	Pipe wrapping repairs for corroded under deck drainage pipework on <b>BP FORTIES</b>	
1996	Texaco/FWWG	Detail design, manufacture and supply lightweight fire and blast rated personnel escape hatch for <b>TARTAN ALPHA</b>	
1996	AGIP	Detail design, manufacture and supply of ESDV protection Enclosures for Snamprogetti <b>TIFFANY</b> project	
1996	Gyrodata	Design, development, testing and manufacture of high temperature, high pressure buoyancy for downhole applications	
1996	Fuel Subsea	Design, develop, manufacture and test composite umbilical arm	
1996	Elf Enterprise	Detail design and manufacture H60 bulkhead fire protection on <b>CLAYMORE 'A'</b> Platform	
1996	BP Exploration	Offshore modification of fire and blast resistant enclosures on <b>BRUCE</b> Platform	
1995	BP Exploration	Detail design, supply and installation of four actuator and two accumulator skid jet fire protection enclosures for <b>SULLOM VOE</b> Oil Terminal	
1995	Norske Shell	Design, manufacture and supply of 48 deluge skid protection Norfass (Norway) Enclosures for <b>TROLL</b> Onshore Phase I Kollsnes	
1995	Elf/Aker Offshore	Detail design, manufacture and supply of lightweight ESDV protection enclosures for <b>TCP-2</b>	
1995	Norske Shell	Detail design, manufacture, supply and installation of 66 EBV and 48Aker Kellogg associated accumulator enclosures for <b>TROLL</b> Onshore Phase I Kollsnes	
1995	Brown & Root	Develop and test in-situ pipe repair system for corroded under deck drains and low pressure piping	
1995	BP/Stolt Comex	Development, supply and injection of water tolerant low temperature curing epoxy resin for grouting of wellhead protection structure <b>NEWSHAM</b> development	
1994	BP	Detail design, manufacture and installation of blast and fire	

## OIL & GAS REFERENCES

Date	Client	Project	PAGE 4 of 4
		protection system for 30" and 36" ESD valves at <b>GRANGEMOUTH</b> for BP Oil	
1994	Phillips	Design and manufacture of three Temporary Safe Refuges to provide jet fire, blast and ballistic protection for three <b>HEWETT</b> Platforms	
1994	BHP Petroleum	Manufacture, system test and deliver four SSBV dropped object protection Enclosures for <b>LIVERPOOL BAY</b>	
1994	Hamilton	Design development of subsea dropped object protection Enclosures Brown & Root for <b>LIVERPOOL BAY</b>	
1993	BP	Design and supply of fire protection panels on <b>HYDE</b>	
1993	Texaco	Design, development and supply of lightweight jet fire and 1.0 bar blast wall for <b>TARTAN ALPHA</b>	
1993	SLP	Detail design and supply of ultra light-weight platform name signs for <b>CLAYMORE CAP</b>	
1993	Mobil	Detail design and supply of ESDV fire and blast protection enclosures on <b>EXCALIBUR</b>	
1993	Phillips (Norway)	Manufacture and supply of H60 fire protection panels for escapeway on <b>EKOFISK</b>	
1993	Elf Enterprise	Manufacture and supply of radiant heat protection panels for <b>CLAYMORE</b>	
1993	Phillips (Norway)	Design, development and supply of special H60 fire and blast panels for <b>EKOFISK</b> Control Centre refurbishment	
1993	Mobil/Subsea Ltd	Development of special resin system for diverless caisson repair on <b>BERYL 'B'</b>	
1993	Shell Expro	Development of high impact energy blow-out panels (350 kJ) on <b>BRENT</b>	
1992	Conoco	Design and supply of large fire, blast and impact resistant enclosures for 36 ins dia ESD valves on <b>LOGGS</b>	
1992	BP	Design and supply of 45-off fire and blast resistant Enclosures for the protection of shut-down equipment on <b>BRUCE</b>	
1990	British Gas/DML	Provision of training and quality control procedures for composite material manufacture for offshore applications	
1990	British Gas	Riser protection against 15 kJ impact on <b>MORECAMBE BAY</b>
